## WERE TOO WEAK

Coffee and Bread as a Breakfast  
for Soldiers.

## TAKE TO THE SICK REPORT

Nearly an Entire Company Appeals  
to a Surgeon—One Drill a  
Day—Deserter.

Monday morning the Denver Com-  
pany of Engineers at Camp McKinley  
was served bread and coffee for  
breakfast. Most of the company being  
business men they did not rebel nor  
fight the cook. Dissatisfaction was  
great, however, and the seriousness of  
the wrong was so patent that they  
could not pass it by unnoticed. Al-  
most the entire command appeared be-  
fore the battalion surgeon and asked  
to be placed on the sick report, for  
the reason that the breakfast served  
was not sufficient to sustain them for  
duty.

The surgeon investigated the matter,  
taking a look at the bread and coffee.  
He agreed with the men and reported  
all of them sick.

At dinner time the full food allow-  
ance was served. Promptly after eat-  
ing something like a meal the men re-  
ported back to the surgeon and asked  
to be taken off the sick list for the  
reason that they had had a "square"  
meal and were consequently able to do  
duty. This, also, was granted. In the  
meantime, however, the facts had  
reached official ears and since then the  
Denver men have fared better.

The afternoon drill at Camp McKin-  
ley is now omitted. Only the forenoon  
drill is held. The men express  
great satisfaction with this change.

Afternoons at Camp McKinley are  
given over to baseball by the men not  
on duty. Three or four teams have  
been organized and will play a series  
of twelve games. The best men will  
then be picked to play against one of  
the town teams. There are some rat-  
tling good foot-ball players; also, at  
the Camp. Most of them are college  
men. They are expecting to enter the  
town series of games, which will open  
in October.

Officials at Camp Otis are anxious  
to come up with a private of the Colo-  
rado recruits whom they have not  
heard of in two weeks. The man de-  
serted from the Minnesota regiment  
here about three months ago, did work  
at the military hospital and was then  
assigned to the Colorado recruit con-  
tingent. One night about two weeks  
ago he came in town, not to return  
to camp again. It is supposed that he  
borrowed citizen's clothes and skipped  
out to the Coast.

## Japanese Young Men.

There was held a semi-annual meet-  
ing of the Japanese Young Men's As-  
sociation at the Eagle House, last Sun-  
day afternoon. After finishing its gen-  
eral report and election of the Board  
of Directors, the addresses were given  
by the members on the standard of  
moral improvement. It is said that its  
chief objects are to afford to its mem-  
bers the means of mutual intercourse,  
mental and moral improvement and  
athletic development. At present it  
has not a great many members; but  
most of them are well educated and  
of high character, so that it would be  
expected to add very much to the in-  
terests of the Japanese colony in the  
Islands.

## Hawaiian National League.

A special meeting of the Hawaiian  
National League will be held in the  
office of S. K. Ka-ne at 12 o'clock  
noon today, for the purpose of effect-  
ing permanent organization. Hereto-  
fore the League has existed as merely  
a temporary institution, the object of  
which was to furnish all information  
in its power to the Commission. It is  
now desired to establish it permanent-  
ly for political or other ends.

## Found Old Friends.

Rev. Wm. Kincaid and family found  
old friends here in Mrs. W. W. and  
Miss Charlotte Hall. Mrs. Hall is from  
Minneapolis. While at school Miss Hall  
attended Mr. Kincaid's church nearly  
two years. Miss Hall and Miss North-  
rop, daughter of President Northrop,  
of the State University, now here, are  
old friends.

## Normal Instructor Off.

T. H. Gibson, traveling normal in-  
structor of the Department of Educa-  
tion, will sail by the Mauna Loa this

morning for the Konas. He will leave  
the vessel at Kailua. Mr. Gibson's  
duties will be to visit each school and  
personally instruct teachers in meth-  
ods of teaching. Two or three days  
will be spent at each school. Mr. Gib-  
son will be away on his present tour  
about a month.

## Mr. Sewall Buys.

Harold M. Sewall, late United States  
Minister and now Special Agent for the  
Government at Washington, said some  
time ago that he intended remaining  
in the Islands indefinitely. Mr. Sewall  
yesterday made his first investment in  
Honolulu real estate. He took four of  
the large lots on the most elevated  
portion of the Gear, Lansing & Co.,  
Telegraph Hill tract. It is the inten-  
tion of Mr. Sewall to build a residence  
on his land.

## A Japanese Theater.

The new Japanese theater is running  
full blast in the Brewer building every  
night, opening about 8 and closing  
sometimes at late as 12 o'clock. Re-  
freshments, consisting of rice and tea,  
are served about 10 o'clock. The play  
running now is a drama. Fifty cents  
is the admission price. About 1,000  
Japs were crowded in the hall last  
night, which seemed to indicate that  
business is prosperous.

## BACK FROM LAYSAN.

Capt. Dow Returns to Port With  
the Planter.

The barkentine Planter from Laysan  
Island with guano arrived in port at  
6 o'clock last evening and anchored  
off the railway wharf, where she will  
discharge her cargo into scows for the  
Kalihi works. While at Laysan Island  
"Old Glory" is reported to have been  
hoisted with due honor. Captain Dow  
has made this another smart passage  
for the Planter, the one previous hav-  
ing beaten the record. The Planter  
sailed on this trip from Honolulu on  
August 20th, making the round trip,  
consequently in about 31 days.

## NEW BUILDINGS.

Business Block on Modern Plans  
for Hall & Son.

E. O. Hall & Son have submitted to  
the Austin brothers, in Boston, a plan  
of what will doubtless be the new store  
building at the corner of Fort and  
King street. The structure will be of  
brick, three stories high and will have  
glass fronts on two sides. When com-  
pleted it will be one of the prettiest  
and most conspicuous store houses in  
the city. It will occupy all of the  
square bounded by Lewers & Cooke's  
on makai side and a line running up  
to the telephone office of 290 hack  
stand on King street. While building  
is going on Hall & Son will give the  
town a business lesson. The Ewa side  
will be occupied while the Waikiki  
side is going up; then the new Wal-  
kiki side will be occupied while the  
Ewa half is being built. The two lower  
floors of the new building will be  
occupied by Hall & Son. The third  
floor will be given over to offices.

Lewers & Cooke are planning a new  
brick warehouse, to go up between the  
Emmeluth block and Hall & Son's, on  
King street. If there is a demand for  
the room the structure will be made  
two stories high.

McChesney & Sons' new brick block  
on Queen street will cover the entire  
lot from Grinbaum & Co.'s to the Wa-  
terhouse premises. It will extend very  
deep, the rear wall coming against the  
Station house yard.

## Battleship Permanently. (Chronicle.)

The plan to assign two battle ships  
to service in the Pacific is good as far  
as it goes, but it does not go far  
enough. One armor-clad is needed at  
Manila, one at Honolulu and one more  
could put in the time to good advan-  
tage here and in Puget Sound. Doubt-  
less that will be the arrangement when  
the Wisconsin, now building at the  
Union Iron Works, goes into commis-  
sion.

## Masonic Warning.

Hawaiian Lodge No. 21, Masons, is  
out with a warning to brethren in the  
States against drifting in here with  
the tide of immigration without means  
or substantial business prospects. The  
circular presents all lines, except those  
requiring cash investments or profes-  
sional standing, as overcrowded.

## The Healan Dance.

It is Friday evening of this week  
that the big dance of the Healan  
Yacht and Boat Club will take place.  
Tickets may be had of the usual com-  
mittee. Anyone notifying W. E. Wall  
may have buses call for them. The af-  
fair will begin at 8 o'clock.

## PRETTY PROSPECT

Applying a California Precedent  
to This Island.

## FRUIT FARMS FOR OAHU

History of a Section of the Coast  
State—Pasadena and Neighbor-  
ing Cities in Point.

MR. EDITOR:—We have on numer-  
ous occasions called the attention of  
this paper to the thousands of acres of  
uncultivated land in our charming lit-  
tle valleys in the neighborhood of Ho-  
nolulu, also the quantity of land on  
the Island of Oahu held by a few in-  
dividuals, and it is the honest con-  
viction of those who are disinterested  
spectators and have a knowledge of  
the facts that there can be no moral  
wrong committed in compelling these  
large land owners either to sell, im-  
prove or subdivide their holdings.

The writer being a pioneer of the  
State of California, remembers well  
how large tracts of land, known as  
the Spanish grants, were acquired in  
the early days of that State by San  
Francisco capitalists. Large acreage  
of the very best land in the Southern  
counties these men came into posses-  
sion of under foreclosure of mortgage,  
etc., from the Spanish alcaldes for al-  
most nothing. The mining excitement  
—being at its height—the population  
being sparse, this condition of affairs  
was not noticeable until immigration  
set in on an extensive scale when it  
was found that the best land in these  
counties had been largely acquired by  
individuals and held by wealthy people  
for speculation. Most of this land ac-  
quired remained unimproved. This  
state of affairs continued for a number  
of years till finally the people became  
thoroughly aroused and by wise and  
peaceful legislation reduced these im-  
mense grants, compelling the large  
land owners to either sell, improve or  
subdivide their grants, and the beauti-  
ful cities of Southern California, Riv-  
erside, San Bernardino, Redlands, Pas-  
adena, Alhambra Park, Santa Monica,  
Sierra Madre, are the results, where  
millions of dollars of horticultural pro-  
ducts are produced yearly. Having  
all the facilities why could we not like-  
wise build up a few of these fashion-  
able pleasure and health resorts on  
the Island of Oahu? We have been a  
frequent visitor to the Waialua and  
Waimea valleys and we are satisfied  
there could be located today a second  
Pasadena, which had a population of  
15,000 wealthy inhabitants. Pasadena  
was not founded as a town, but de-  
veloped from a fruit-growing colony,  
established on a co-operative plan by  
a company of gentlemen from Indian-  
apolis, Indiana, in 1874. They planted  
orange and lemon groves, built com-  
fortable homes and in a few years  
found their settlement attracting wide  
notice on account of its picturesque  
surroundings.

The shore line of the beautiful Wa-  
ialua valley from the point to Waimea  
river is about sixteen miles, sloping  
back to a width of half a mile to four  
miles, embracing probably an area of  
20,000 acres or more. Up in the moun-  
tains are charming little valleys, which  
will produce all tropical and semi-  
tropical fruits grown in any part of  
the world. We all know that our  
choicest oranges are the Waialua Le-  
mons, limes, pomelo or grape fruit, all-  
igator pears, mangoes, lichee, dates, co-  
conuts, bananas and vegetables of all  
kinds can be produced and there is no  
reason why we should not have a sec-  
ond Pasadena if the Waialua land was  
divided into small homesteads from  
two, five to ten acres, but this can only  
be done on a co-operative plan. In  
Sweden they have the Raefvelsen sys-  
tem of Co-operative Agricultural Credit  
Association to prevent the small  
land owners from falling into the  
hands of the money lenders, and they  
advance money only for the purpose of  
agricultural benefit and the society  
sees that the money is expended for the  
purpose for which the advance was  
made. This society has a scientist,  
who visits the small farms once a  
month and instructs them in new  
methods of agriculture and procures  
for them new labor saving machines,  
better breeds of cattle, etc., etc. Fred-  
erick Raefvelsen, a mayor of the town  
of Flammersfeld, started this system.  
His object was to rescue the small  
farmers from the oppressive grip of  
the money lender, and it has proved a  
marvelous success.

Why could we not have an Atherton,  
Baldwin or Ena system of Land Credit  
Association in Hawaii? It is the best  
system known for farmers and for the  
public who might invest in the de-  
velopment of such association. For many  
of the natives, little kuleanas could  
be saved to their owners and children

and it would be the saving of the  
small coffee planters who are now  
struggling under 8 per cent mortgage  
or more, giving them an opportunity  
to enlarge and improve their holdings.  
Here is food for thought.

A. H.

## That Yacht Race.

There is still a muddle over the first  
class yacht race of last Saturday. The  
judges, to whom the matter had again  
been referred, considered it yesterday  
afternoon and decided to report back  
the official time figures to the Regatta  
Committee. The figures printed in  
Monday's paper, were based on meas-  
urements by O. Sorenson. Additional  
handicap claimed by Judge Wilcox was  
published Tuesday. It will now remain  
with the committee to determine be-  
tween these schedules.

## Tobacco Culture.

W. M. Giffard has some fine tobacco  
growing at Maunawili, beyond the Paoli.  
W. W. Dimond's experiments are not so  
far advanced, but appear quite promis-  
ing. An effort is being made to pro-  
duce a fine quality of leaf. A failure  
was made in the first instance. Island  
tobacco sent to New York by Mr. Di-  
mond was condemned, experts conclud-  
ing that the fiber was too coarse and  
the leaf too strong for use in smoking  
goods. Experimenters are now trying  
for a more moderate fiber.

## VETERANS WRITE.

The Diamond Head Heroes Ask  
for Information.

Veterans of the rebellion of January,  
1895, addressed a letter to Senator Cul-  
um yesterday asking if it was a fact  
that the Commission had decided not  
to receive memorials asking for the  
restoration of the monarchy. They  
state that President Dole so informed  
one of their number. The letter is  
signed by John C. Lane, Robert W.  
Wilcox, Lot K. Lane, J. W. Bipikane  
and John Mahuka. A reply may be  
made by Senator Culum today.

The fact in this matter is that the  
Commission refused to be interrupted  
in its deliberations yesterday by the  
notorious Bipikane. Further, at least  
one member of the Commission has  
said, that the propriety of receiving  
memorials asking for return of mon-  
archy, was doubted. At all times all  
classes have had access to the Com-  
mission and the body is yet willing to  
listen to any reasonable petitions, but  
the line must be drawn at childish  
foolishness and the wasting of time  
for nothing.

A delegation of native Hawaiians  
from Lahaina presented a memorial to  
the Commission, thanking President  
McKinley and Congress for annexa-  
tion.

## MANAGER FRED. WALDRON.

### Chosen to Succeed Colonel Peter

Lee at Volcano House.

Fred Waldron has been appointed  
manager of the Volcano House, suc-  
ceeding Col. Peter Lee. Mr. Waldron  
expects to get away by the Mauna Loa  
today for his new post, going via Kau.  
Mrs. Waldron will accompany her hus-  
band. It was announced in this paper  
some weeks ago that Mr. Lee would  
retire on account of certain incidents  
occurring at the time the Commission  
party called at the Volcano House.

The appointment of Mr. Waldron  
has given general satisfaction about  
town. He is considered an excellent  
man for the place. For a long time  
Mr. Waldron was bookkeeper for the  
Manufacturers' Shoe Co., and for more  
than two years has been identified  
with the business of McChesney &  
Sons. He has traveled a great deal in  
the Islands and is well known through-  
out the group.

## ESTATE VALUED AT \$10,000.00.

John Smith left an estate valued at  
this amount. The greater part was  
saved by buying goods at L. B. Kerr's,  
Queen street. See his ad and you will  
realize how it was done.

Royal makes the food pure,  
wholesome and delicious.

ROYAL BAKING POWDER CO., NEW YORK.
